

Marketing Sentiment & ROI Strategic Report

1. Strategic Marketing Philosophy

Modern marketing transcends simple transactions. This report evaluates the synergy between financial investment (ROAS) and customer satisfaction (Sentiment). By identifying high-performing channels with positive emotional resonance, we ensure sustainable growth and brand loyalty.

2. Financial & Sentiment Methodology

The system analyzes 300 data points across various channels. Financial efficiency is measured through Return on Ad Spend (ROAS), while customer sentiment is categorized using an automated NLP classification model.

3. Channel Efficiency & Sentiment Breakdown

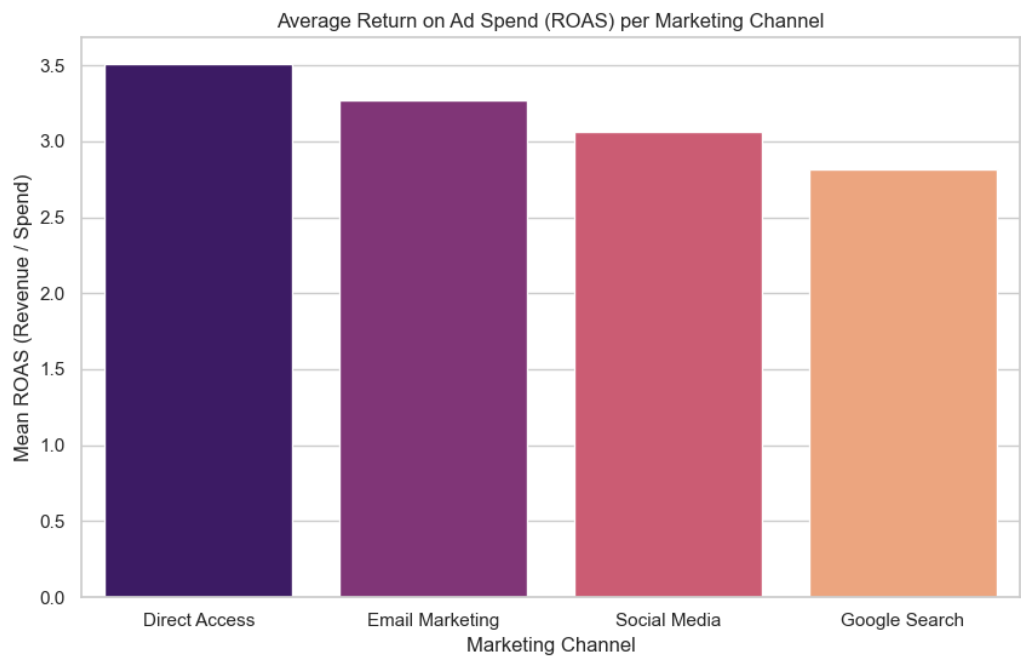

Chart 1: Comparison of ROAS across marketing channels.

Marketing Sentiment & ROI Strategic Report

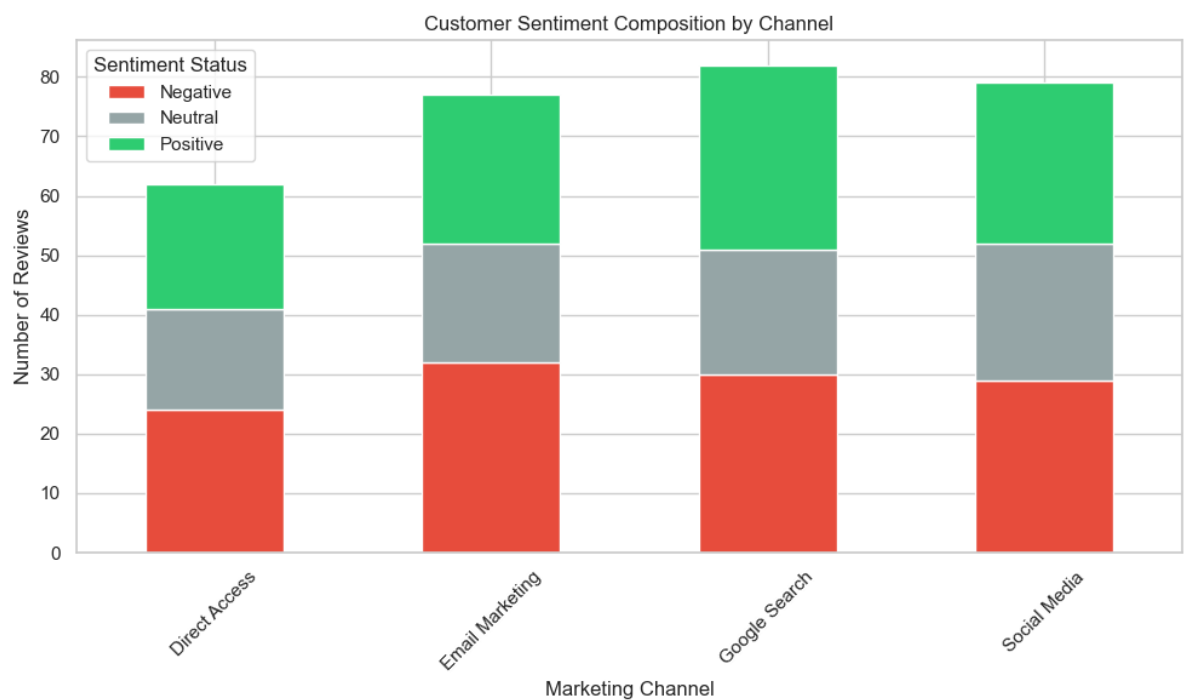

Chart 2: Qualitative analysis of customer sentiment per channel.

4. Strategic Directives for Growth

- Reallocate budget from low-ROI channels to high-sentiment platforms.
- Optimize 'Negative' clusters by refining marketing messaging and customer support.
- Implement real-time sentiment tracking to preemptively address brand risks.
